### <u>Maths</u>

We will be learning how to count in jumps of 2,5,10 and 3 from any number. We will be exploring patterns in number and the place value of each digit in a 2 digit number.

We will be reading, writing, comparing and ordering numbers to 100 and beyond, as well as estimating and problem solving using our knowledge of number facts and number bonds to 10, 20 and 100.

We will learn how to solve addition and subtraction problems in a variety of ways using a variety of resources both written and practical.

### **Geography**

We will be exploring our local environment as well as discovering where we live in relation to the whole of the British Isles.

We will find out about the countries that make up the British Isles as well as places of importance and interest such as capital cities and local landmarks.

## <u>Art</u>

We will be thinking about how to use a variety of skills and techniques to create a finished product.

We will explore techniques of collage, watercolour painting, printing, pattern and drawing.

We will use what we have learnt to produce art work based on the work of Klimt.

### <u>English</u>

We will be learning how to use non-fiction books to read, investigate and then write our own information in our chosen format.

We will learn how to read and perform poetry as a group, in partners and as a whole class. We will explore language and learn how to use onomatopoeia to write our own poems and perform them.

We will be learning how to plan and write stories of our own based on known tales and learn how to write for different purposes.

Y2 Tap Tap Autumn 1

We will learn how to extend and develop sentences adding description and detail, and how to improve our sentences through the correct use of punctuation, grammar and spellings.

# <u>Science</u>

We will be learning all about materials. We will learn how to identify and classify materials, ask and answer questions and perform simple tests to explore properties of materials.

We will find out about the different uses for materials and how materials can change shape through manipulation. We will learn to explore our ideas and evaluate what we have found out.

# <u>PE</u>

We will be exploring movement in dance and gymnastics. Learning to link and sequence movements to music and using a variety of big apparatus in gymnastics.

We will learn and practice basic skills of throwing and catching, moving in different ways such as running, skipping, jumping and using a variety of apparatus before learning how to use these skills as part of a team or in a game situation.

#### **Computing**

We will be using computers and i-pads to support us in using technology to create, organise, store, manipulate and retrieve digital content.

We will learn how to use programs to create a product with a design of our choice, manipulating pictures and text and learning how to save and print our finished products.

### Design & Technology

We will be designing and creating a playground, learning how to draw plans and designs, join materials to create a finished product and evaluate our designs.

## <u>Music</u>

We will be exploring sounds that we can make with a range of tuned and un-tuned instruments.

We will create soundtracks using these instruments to go with stories and create performance poetry.
