

At London Meed we want to share things you can do with your child during these uncertain times that will help develop their learning. There will be things on this list which you can do at home.

The whole of KS2 Summer term topic will be based on rainforests.

Key questions

- What animals are there?
- How does the rainforest impact the environment?
- Where are the rainforests? (Geography)
- What is the rainforest?
- What are the threats to the rainforest?
- What do you think would happen if there were no rainforests in the world?

Personal challenge: To encourage your child to be active at school during P.E lessons.

- This may start at the beginning of the week and improve during the week. They will have a set amount of time/ reps/ score to complete an activity every day and by the end of the week the goal is to improve their time/ reps/ score at the end of the week.

Here are a few websites where you can find any activities of interest.

Twinkl.com are offering a month free subscription to free online resources for year groups. These fantastic interactive learning links are perfect for supporting valuable home learning. Each PDF includes links to resources and activities that cover a range of national curriculum topics for all years, including reading, science, maths and writing. All of the resources contained within the PDFs have been selected to be used by parents and carers as a starting point for purposeful home learning.

Kidsactivitiesblog.com = Many ways to find the latest activities

Headteacherchat.com = Plenty of resources and ideas.
